

TATHEER FATIMA

BS Computer Science Student | Front-End Development Intern

tatheerfatimaofficial08@gmail.com | linkedin.com/in/tatheer-fatima-cs | github.com/tatheerfatimaofficial08-rgb

PROFILE

Computer Science student building practical experience in front-end development, C++, Python, and digital systems. Hands-on with HTML, CSS, JavaScript, responsive web interfaces, JavaScript applications, file compression, online examination systems, and sensor-based hardware. Interested in practical software development and continuously strengthening programming and problem-solving skills.

TECHNICAL SKILLS

- **Programming:** C++, Python, JavaScript
- **Web:** HTML5, CSS3, Front-End Development, Responsive Web Design, DOM Manipulation
- **CS:** Object-Oriented Programming, Data Structures, Digital Logic Design, Problem Solving
- **Tools:** Git, GitHub, VS Code
- **AI:** Artificial Intelligence, AI Literacy, Responsible AI, AI Strategy

EXPERIENCE

Front-End Development Intern | EXPS Nexus

Aug 2026 – Sep 2026

- Selected for a remote, project-based front-end internship focused on HTML, CSS, JavaScript, responsive design, DOM manipulation, and GitHub workflows.
- Completing hands-on front-end projects under mentor guidance with weekly submissions and portfolio-focused deliverables.

Front-End Development Intern | CodeAlpha

Aug 2026 – Sep 2026

- Selected for a one-month Front-End Development internship focused on practical web development and hands-on implementation.
- Working on portfolio-oriented tasks using HTML, CSS, and JavaScript.

C++ Programming Intern | Arrowstack Technologies

Aug 2026 – Present

- Selected for a remote C++ programming internship focused on practical project development and software engineering.
- Building project work while strengthening C++, object-oriented programming, Git/GitHub, and development workflow skills.

EDUCATION

BS Computer Science | Air University, Multan

In Progress

Relevant areas: Programming Fundamentals, Object-Oriented Programming, Data Structures, Digital Logic Design, Web Development.

A Levels | Bloomfield Hall School

2023 – 2025

Subjects: Mathematics, Physics, Urdu.

O Levels | Bloomfield Hall School

2020 – 2022

Cambridge curriculum including Biology, Chemistry, Physics, Mathematics, and English.

ACADEMIC PROJECTS

StudyFlow – Smart Academic Planner | HTML5, CSS3, JavaScript

- Built a student-focused web app with dashboard, Pomodoro timer, class schedule, task planner, timetable, digital notebook, dark/light mode, and responsive UI. Used DOM manipulation, setInterval, localStorage, real-time task controls, word counting, and text-file export.

Huffman File Compression System | C++

- Developed a Huffman-based compression/decompression system using frequency analysis, binary trees, file handling, and bit-level data processing.

Online Examination System | C++

- Created a console-based examination system with automated scoring and persistent examination records, applying functions, loops, conditionals, arrays, and file handling.

Ultrasonic Distance Measurement System | Digital Logic Design

- Designed a sensor-based distance measurement system, strengthening understanding of circuit design, hardware interfacing, timing concepts, and digital systems.

CERTIFICATIONS

- AI For Everyone — DeepLearning.AI / Coursera | Aug 2026 | Grade: 96.25%
- Introduction to HTML, CSS, & JavaScript — IBM / Coursera | Aug 2026
- Intro to Programming — Kaggle | Feb 2026
- Claude Code 101 — Anthropic | Aug 2026

ACHIEVEMENTS

- Winner, English Essay Writing Competition — Sahoor Society, Air University.

- Participant, International Kangaroo Linguistic Contest and school speech competition; played baseball in school sports.
